DISEASE INVESTIGATIONS – WEBINAR

JUNE 26, 2018 – 12 P.M. TO 1 P.M., SASKATCHEWAN TIME, ONLINE

During this webinar, Dr. John Campbell, Disease Investigation Unit (DIU) lead, will discuss the program and its impact on livestock health and welfare.

The DIU assists veterinarians with cases requiring additional expertise and resources for investigating potential emerging or foreign animal diseases, food safety issues, and complex or unusual livestock disease events.

Register for this webinar: <https://attendee.gotowebinar.com/register/6754687347835820801>

The DIU is a partnership between the Western College of Veterinary Medicine and Saskatchewan Agriculture that has operated as a vital disease surveillance tool in the province for more than 20 years.

There is no charge to attend this webinar. The event will be recorded and accessible via our website Saskatchewan.ca/agriculture following the live event.

For more information contact Alicia Sopatyk, PAg, Tisdale Regional Livestock and Feed Extension Specialist at 306-878-8847.
