

Veterinarian Job Advertisement

Do you have superior communication skills and a passion for veterinary medicine based on a relationship-centred approach? Are you energetic, reliable, and a supportive team player? Do you desire to be part of the Fear-Free movement? Are you excited by a dynamic, ever evolving approach to veterinary medicine? If you answered “yes” to these questions, then you may have found the perfect match!

Testimonials from our veterinarians and vet student mentees...

“I couldn’t ask for a better mentor”

“I love everyone I work with, the clients and their pets”

“I always look forward to coming to work and seeing all the smiling faces. Thank you for being so patient and understanding of me and always being so positive”

“High quality medicine, up to date equipment, awesome staff”

“Working with you gives me confidence that I can diagnose and treat anything!”

“I am so very lucky to have you as a boss and mentor. Thank you for being so great and trying so hard to keep everyone happy.”

“You were one of my biggest role models while providing a career in veterinary medicine and you supplied me with the information, experience and opportunity to follow my dreams!”

We are a progressive practice with a newly designed clinic that is devoted to the “Fear-Free” movement. We are looking for a veterinarian who thrives in a team environment and who readily builds positive rapport with clients and colleagues. The successful candidate should have excellent written and verbal communication skills and demonstrate a commitment to preventative small animal medicine and surgical care. The candidate must have a passion to form positive relationships with coworkers and a drive to be a member of a professional team providing excellent service through education and cooperation with clients. Believing the best medicine involves collaboration, we are open to new ideas as well as always being there to assist less experienced colleagues with both surgical and medical case management and diagnostics. We are looking for someone who shares our vision, mission and values (<https://www.erindaleanimalhospital.com/>) and will conduct themselves in keeping with our motto. The successful candidate must demonstrate empathy, kindness, compassion, possess an “ownership attitude”, be an ambassador to our brand, an outspoken champion of our hospital, and deliver an exceptional service experience to clients and colleagues alike.

New graduates are welcome to apply; mentorship and team medicine are paramount to our mission. Each vet works with their own exam room attendant and is supported by an experienced and enthusiastic staff. We schedule two to three vets per day with overlapping schedules to allow for team-based management and internal consultations. We customize our health care to individual patients’ needs and foster close client relationships.

We offer a health and dental package to full-time employees, paid SAVT dues, continuing education, uniform allowance and subsidized pet care. We offer “have it your way benefits” such as paid CE allowance and association fees, group health benefits, insurance, competitive wages, monetary compensation for after-hours and off- hour rechecks, and employee pet discounts. A clinic vehicle or paid mileage is provided for house calls or other clinic business. We have two complete and up to date in-house labs, digital radiography, ultrasound, new dental equipment, access to a local lab and board-certified specialists by referral and telemedicine so we can offer our patients the best care and second opinions when needed.

Our rotating staff schedule affords all staff a proper work/life balance. We conduct paid staff retreats to focus and unite staff and “Return to Rescue” events provide support for our local animal rescues. We employ a departmental management approach to allow for focused meetings that are truly relevant. Scheduled phone call and file charting is provided during your paid work day as well as half-hour appointments so every pet gets the care and attention it deserves.

Sound good? Intrigued? If so please submit your resume with 3 references that we may contact to eah@sasktel.net. Only suitable applicants will be sent a formal application form. Thank you for your interest in Erindale Animal Hospital.
