
GUIDE FOR STUDENTS AND PRACTICES

Goals of the Program

To ensure adequate veterinary service is available in the future to serve Saskatchewan's expanding livestock production sector by exposing third year veterinary students and first year veterinary technology students to rural veterinary practices in Saskatchewan serving a high percentage of livestock clients. The program is not meant to subsidize existing arrangements. It is meant to foster new relationships between practices and developing veterinarians and/or veterinary technologists. Preference will be given to those who have not participated in the program in the previous year.

Objective of the Program

Assist rural practices in sourcing aspiring veterinarians for practice succession planning.

To introduce six (6) third year veterinary students and two (2) first year veterinary technology students year Saskatchewan to eight (8) veterinary practices in Saskatchewan serving a high percentage of livestock clients.

Planned Outcomes

By providing third year veterinary students and first year veterinary technology students a more intensive large or mixed animal practice experience and by demonstrating a range of professional and lifestyle options to be found in the agri-food sector in rural Saskatchewan, our hope is the preceptorship program will encourage students to seriously consider rural food animal or mixed practice as an attractive career option. Preference is given to Saskatchewan origin students, but applications from all accredited Canadian veterinary and veterinary technology schools will be considered.

Terms and Conditions

1. Preference in the selection process is given to Saskatchewan origin students, but applications from all accredited Canadian veterinary schools and veterinary technology programs will be considered.
2. Supervising veterinary professionals must be in good standing with the association.
3. Practices will be responsible for providing supervision, guidance and support during the program period between May 1 and August 31 of the program year for either:
 - a third-year veterinary student for twelve (12) weeks, or
 - a first-year veterinary technology student for up to twelve (12) weeks.
4. Financial support provided by the practice must be either cash or a combination of cash and in-kind contributions that equals at least \$3000 over and above the \$5625 provided by the SVMA and the Preceptorship Program Fund. Practices may provide financial support above the minimum. Please note that vet tech student wages have yet to be finalized, but the amounts paid by the practice, SVMA and the PP Fund will be the same, proportionally, ie. 35%, 35% and 30%, respectively.
5. In-kind contributions such as suitable living accommodations, board and room or travel support, to a maximum of 50% of the practice contribution, are allowed. Other in-kind contributions made by the practice should be discussed with the SVMA prior to the start of the summer program.

VETERINARY & VETERINARY TECHNOLOGY STUDENT PRECEPTORSHIP PROGRAM

6. The SVMA will provide each practice with three payments over the summer (for a 12-week placement, adjustments will be made if the time is less). For a DVM student, \$2000.00 will be issued at the end of May, \$2000.00 at the end of June and \$1625.00 at the end of July.
7. Practices are to use the funds provided by the SVMA as part of the wages paid to the student. Standard deductions shall be made from the student's gross wages: the workers compensation program is mandatory. Disability and other insurance are the responsibility of the student.
8. All practices (ie, the supervising veterinarian) and students accepted into the preceptorship program will be required to attend a **webinar** about optimizing student success through the program. This webinar will be held prior to the start of the program period.
9. Preceptorship students are expected to be agents of their own learning. As part of this, they are required to submit three reports to the SVMA regarding their preceptorship activities over the summer. Reporting deadlines and forms will be sent to all students prior to the submission window. Reports must be received by the SVMA office for the final cheque to be issued.

Application & Selection Process:

1. Practices apply by October 15, 2021.
2. The summer student committee will select practices for the program and have the list available for the students eligible for the program.
3. students can apply to practices and be interviewed and determine if the practice is the 'right fit' for each other
4. Practice and student will need to complete a participation agreement by December 15, 2021.

VETERINARY & VETERINARY TECHNOLOGY STUDENT
PRECEPTORSHIP PROGRAM

PRACTICE APPLICATION

Practice name _____ Mixed animal Large animal

Practice owner(s) _____

Address _____

Phone _____ Email _____

Supervising Veterinarian(s) _____

Are you able to provide or help arrange living accommodations for a preceptorship student? Yes No

Information about your practice (please add additional pages if necessary) _____

As owner of the practice, I _____ agree to:

1. Participate in a preceptorship placement of up to 12 weeks during the time between May 01 to August 31, 2021 with the 3rd year DVM student or first year VT student should my practice be chosen for the program.
2. Assign one of the veterinarians in the practice to be the primary supervisor for the duration of the program period. The primary supervisor will be required to attend a live webinar on summer student program success. Other supervisors/staff are encouraged to attend.
